

Harfiled Village, Kenilworth, Cape Town, 7700

## Getting Started

Congratulations on your engagement and thank you for considering Mabel M Florals to be part of your special day.

Each bride and her wedding is unique, therefore we do not offer packaged or predetermined choices.

Regardless of your budget, our focus is to listen closely to your thoughts and visions and use them to create an atmosphere that exceeds your expectations.

Mabel M florals is primarily recognized for romantically chic and classically modern style.

We work closely with African based growers to source out only the best flowers including Kenya of course, the home of scented & David Austin roses.

Also with internationally based in countries like Holland,

"where else would you want your tulips from?"

## Details & Pricing

We understand that preparing a floral budget can be overwhelming, and we are happy to share our knowledge and expertise.

The time of year, growing season, weather, number of components, type of container, and required labor are all key elements that determine pricing. The cost of some flowers will periodically rise based on the season, while others will remain steady.

**Remember that the types of flowers you choose can affect price as much as size of an arrangement.**

It has been our experience that by choosing quality, rich, and interesting floral arrangements, you will be happier with the final results.
